Description

Avant Flail Mower

The blades on the flail mower shaft move freely, so in case they hit a solid obstacle they will give in rather than break. This saves the blades costs when cutting in an unfamiliar place. Flail mower is the optimal cutting device for places where you need a lot of cutting power and a rougher cut will do. The most common grounds for flail mowers are places with taller vegetation like meadows, road banks, yard areas etc.

- Renewed floating system: Vertifloat™
- More cutting power through renewed blade configuration

200, 400, 500 & R SERIES

- Cutting width: 1100 mm
- Cutting height: 25 - 100 mm
- Blades: 60 pcs
- Weight: 260 kg
- Product no: A21386
- Product no 200 series: A21387

R, 600 & 700 SERIES

- Cutting width: 1300 mm - 1500 mm
- Cutting height: 25 - 100 mm - 25 - 100 mm
- Blades: 68 pcs - 42 pcs
- Weight: 290 kg - 315 kg
- Product no: A21364 - A21362
