

## DT22 Scarifier

The DT22 is a truly robust dethatcher, designed for tough, professional jobs under extended periods. Compact design, powerful engine and the unique option of using it as a sowing machine make the DT22 virtually indispensable for lawn care companies etc. Can be fitted with three different types of cutting equipment, and with a collector as well. Ideal for contractors, rental companies and other professional applications.

### Compact design

Compact design, low weight and folding handle for easy transport.

### Honda GX-engine

High-spec Honda engine. Powerful and easy to start.

### Seed hopper

Seed hopper for 14 kg of grass seeds. (accessory). Adjustment for torrent of seed convenient placed on the handle.

### Grass collector

230 litre grass collector (accessory).

### Commercial components

High-specification components ensure years of reliable use.

### Adjustable working depth

Central adjustment for working depth, where depth is adjusted depending on blade wear.

## Technical data

### Engine

Engine manufacturer	Honda
Engine type	GX 160 OHV
Power	5.5 hp / 4 kW
Cylinder displacement	7.3 cu.inch / 163 cm <sup>3</sup>
Engine lubrication	permanently lubricated
Cooling	air
Air filter	yes
Oil type	SAE 10W-30 SF-SG
Oil capacity	0.15 gallon / 0.6l
Fuel, minimum	min 86 octane
Fuel tank capacity	2.5l / 0.66 gallon
Spark plug	NKG BPR6ES

### Transmission

Transmission manufacturer	Honda
Gear reduction	1:6
Chassis construction	steel
Tyre size, front/rear	8x1.75" / 10x1.75"

## Advantages

- Robust design**  
 Robust design for demanding, professional use.
- Long life bearings**  
 Sealed, permanently lubricated and self-adjusting bearings provide reliability and long life.
- Belt drive**  
 Belt drive with release handle for the rotor.
- Grow optimising neoprene flap**  
 Neoprene flap at the rear of the machine evens out the soil to optimise growing conditions.
- Flail blade reel**  
 Free-swinging flail blades efficiently remove matted thatch/moss with centrifugal force. This design ensures excellent thatch removal and has been proven for more than four decades in the demanding rental equipment business. (accessory)
- Delta blade reel**  
 The austempered steel Delta blades have a unique angled position and beveled cutting edges that cut slits in

**Equipment**

Handle	Folding, Foam
Working width	22" / 56 mm
Working depth	25.5 mm
Height adjustment	yes
Ball beared wheels	yes
Seeder	Option
Collector	Option

**Ergonomics****Overall dimensions**

Weight	63 kg
--------	-------

the ground for scarifying, overseeding or aerating . (accessory)

- **Spring tine reel**  
Suspension-mounted spring tines remove thatch/moss from well-manicured lawns. In addition, individual spring tines can be quickly replaced without removing the reel assembly. (accessories)
