

## SG13 Stump Grinder

Professional stump grinder for removal of stumps, even in tight spaces. Powerful Honda engine and carbide-tooth grinder ensure superior results. The versatile construction allows the user to work in passages as narrow as 700 mm.

The ergonomic, adjustable handle and four lifting handles make it as easy to transport as it is to use.

### Compact design

Compact design, needs only 700 mm of lateral clearance.

### Adjustable handle

Ergonomic, adjustable handle with four height settings.

### Honda GX-engine

Powerful, high-specification Honda engine.

### Carbide toothed

Carbide toothed grinding disc for efficient work.

### Technical data

#### Engine

Engine manufacturer	Honda
Engine type	GX390 OHV
Cylinder displacement	389 cm <sup>3</sup> / 23.7 cu.inch
Power / at rpm	9.5 kW / 3600 rpm
Power / at rpm	13 hp / 3600 rpm
Torque, maximum / at rpm	23,5 Nm / 2500 rpm
Spark plug	NGK BPR6ES, Denso W20EPR-U
Fuel tank volume	6.5l / 13.8 US pint

#### Transmission

Tyres	4.10-6"
Drive belt	Gates HiPower BP54
Clutch	Noram

#### Equipment

Cutting equipment diameter	14" / 35.6"
Teeths	8
Working depth	30 cm / 12"
Brakes	Disc

#### Ergonomics

#### Overall dimensions

Product size, LxWxH	185x69x109 cm / 73x27x43"
Weight	113 kg / 249 lbs

### Advantages

- Robust design**  
 Robust design for demanding professional applications.
- High-specified components**  
 High-spec components ensure a long service life in demanding conditions.
- Long life bearings**  
 Sealed, permanently lubricated and self-adjusting bearings provide reliability and long life.
- Four handles**  
 Four lifting handles facilitate handling and transport.
